ABSTRACT

The purpose of education is its elements associated with the process of education and its consequences. Therefore, in order to understand the contemplation of a particular thinker, it is necessary to consider its fundamental role as well as the purpose of education in relation to the concept of education. In general, the purpose of building educational objectives lies in social norms. In the same way, how to make the shape of the emergence by making any changes in the education of the person as well as of the society. The teaching on that is based on the basic idea of the thinker that the purpose of education is to formulate. In education, it is often possible that a thinker thinking about education focuses only on the purpose of education, considering that the situation is generally negatively imposed on those who see the deficiency of the prevailing teaching practice at the time.

Introduction

The purpose of education is its elements associated with the process of education and its consequences. Therefore, in order to understand the contemplation of a particular thinker, it is necessary to consider its fundamental role as well as the purpose of education in relation to the concept of education. In general, the purpose of building educational objectives lies in social norms. In the same way, how to make the shape of the emergence by making any changes in the education of the person as well as of the society. The teaching on that is based on the basic idea of the thinker that the purpose of education is to formulate. In education, it is often possible that a thinker thinking about education focuses only on the purpose of education, considering that the situation is generally negatively imposed on those who see the deficiency of the prevailing teaching practice at the time.

Objectives of the research:

The present study was conducted with keeping in mind the following objectives.

1. To study the concepts of education according to Joseph Macwan.
2. To learn the purpose of education according to Joseph Macwan.
3. To learn the business-minded ideas of Joseph Macwan's teacher.
4. To know Joseph Macwan's ideas on teaching.
5. According to Joseph Macwan, studying the position of teacher in society.
6. Joseph Macwan's approach to teaching methodology.

7. Studying Religious Education in Joseph Macwan's Novels.

Research questions:

The present study was conducted with keeping in mind the following questions.

1. What is Joseph Macwan's concept of education?
2. According to Joseph Macwan, what should be the purpose of education?
3. How is the teacher's concept in Joseph Macwan's novels?
4. How is Joseph Macwan's novels professionally portrayed?
5. According to Joseph Macwan, what is a teacher's position in society?
6. what should be the teaching method with the view of Joseph Macwan?
7. How is Joseph Macwan's religious concept to educations?

Type, area, and method of research:

Type of research: This research is a qualitative research of the practical questions presented to the principal, teacher, researcher useful to society.

Area of research: The field of research has several areas of education, among which the field of study is the 'education Philosophy'.

Research Method: The content analysis method is used under the description research method.

Limit of research:

The present study is limited to the educational ideas of Joseph Macwan's novels; however, the limitation of this research is that only 4 novels out of 13 novels of Joseph Macwan's have been studied.

Population and Sample:

The present study is of a gullible nature, so there are population no living characters as professional and exemplary Joseph Macwan has created himself in various literary forms. It has mainly given 13 novels. These 13 novels are the population of this study. When 4 novels becomes a sample of study that follows.

1. Mari parnetar
2. 2. Sangvato
3. dariya
4. angariyat

Data Collection, Analysis, and Interpretation:

In the present research the researcher has collected the data from the selected four novels by classifying the data according to the objectives and questions of the study.

Findings:

The following are important findings are abstracted from the study of Joseph Macwan 's novels.

1. According to Joseph Macwan, Teaching Education:

Concept of education is different in Joseph Macwan's novels. He point out that there should be no formality in education but informality. It should be unobtrusive and time bound. Furthermore, he believes that education should be self-sustaining, agricultural and industrial.

2. According to Joseph Macwan, the motives for education:

Education is a sacred act. The teacher should disclose the penance of his truth. Education is essential in the overall development of the individual and for the uplift men of the nation. Every teacher should fill his mind with love so that human beings will never feel lonely in life. Education is nourished by love and truth.

3. According to Joseph Macwan, a diligent teacher:

The teacher must be a true educator. It should have the power to change society. As well as the spirit of cooperation, the attitude of the sincere ideal teacher, who is constantly on the move, constantly aware, conscientious, etc., against the wrong ideas and wrong people?

4. According to Joseph Macwan's Education Methodology:

Reviewing Joseph Macwan's novels, it seems that in view of the new education system, the servants of the country have adopted a sophisticated education system to make them truly servants, develop their students and build a better society with students. In recent times it has become very important to use this method.

5. Religious Education According to Joseph Macwan:

The teaching of religiosity remains a basic store. The student must have a sense of righteousness, a sense of purity, unity of the soul, and a sense of integrity, a belief in

divine authority. He advocates the teaching of religious education in such matters as the belief in the fruits of karma.

Conclusions:

Adna manvioni vyatha to listen to the grief of a human being in the face of a teacher were precisely those of Joseph Macwan, a well-known novelist. The presented study was limited to the novels of Joseph Macwan. Nevertheless, this study will be useful to the teachers at the school level, to the administrators, principals, teachers and students to import value education them only this humble study would be worthwhile.
