About CTE – Council for Teacher Education

Recognizing both need and the aspiration to professionalize teacher education, a group of committed educators launched the Council for Teacher Education National Chapter in 1985 under the guidance of Late Dr. GulabChaurasia, the Founder of CTE.

This organization was registered as a Professional National Organization of Teacher Educators under registration No. 508/91 on August 24th 1991 under M. P. Societies Registration Act 1973. Presently Dr. DevrajVij is the National President of the Council.

The major objective of CTE is to strengthen teacher preparation programmes, both pre-service and in-service. Since the key to achieving this goal lies in enhancing the competence and commitment of teacher educators, most initiatives have been focused on the professional development of teachers and teacher educators.

CTE has a membership of over 7000 individuals and institutions throughout the country. CTE has also started "CTE Bureau of International Relation and initiated a dialogue with The American Association of Colleges of Teacher Education (AACTE) & World Council for Curriculum and instruction (WCCI).

Along with this CTE seeks opportunities to work closely with NCTE, NCERT, NUEPA, UGC, SCERT and other agencies at the national and state levels in implementing the national agenda for education. At present "The CTE journal", is published twice a year at National Level under the guidance of prominent educationists.

To decentralize the work and carry out smooth functioning of the council, 20 different state centres of CTE are established where, these statecentres are engaged in preparation and publication of instructional materials in regional languages for the use of students and staff members of SCERT.
